OVERVIEW

Established since 2001, Sentra Design, through its companies, PT. Sentra Design Properindo and PT. Sentra Desain Kreasindo is an interior contractor company that provides interior design and interior construction services for commercial space.

Sentra Design provides total solution in interior fit out services, furniture supply, small & medium civil construction and mechanical electrical for your company outlet and office with your special corporate branding characteristic.

OUR TEAM

Supporting by architect,
interior designer and civil
technicians with over
20 years experience,
Sentra Design has a
commitment to give
total solution and
excellent result for
our clients

Our services

We focus on what's important to you, working with you to reach your residential & commercial building. We offer a broad range of services, including designing, consulting, developing and general contracting. As one team under one roof, we are able to offer a faster, more efficient and streamlined process, ultimately saving you time and money and allowing you to focus on running your business.

We provide full service for all components involved in the construction process including demolition, structure, facade, partitions, ceilings, finishes, specialty items, furniture, mechanical, electrical, plumbing and fire protection.
